

Bracket to mount a Yamaha FZR headlight on a Moto Guzzi Quota 1100 fitted with a Moto Guzzi Quota 1000 fairing

- Drawn to scale -

Start off with a 1" x 1.75" piece of 1/8" thick steel. 3/4" wide steel will work just fine, too.
Print this page at 100% resolution (do not shrink or fit to page).
Cut out pattern below and transfer to the steel.
Drill holes and file slot flat.
Grind left side down to make narrower. Round corners.
